Ash 12% Vitamin E 170mg/kg

Fibre 3% (Alpha Tocopherol)

Copper 25mg/kg

(As Cupric Sulphate)

DAILY FEEDING GUIDE

Weight of Puppy Amount of Feed

(1-3kg) 50-160g (Up to 11/2 cups)

(4-6kg) 90-230g (1-2 cups)

(7-10kg) 125-390g (11/2-31/2 cups)

(11-15kg) 230-500g (2-5 cups)

(16-20kg) 370-650g (31/2-7 cups)

Please note:

These amounts are intended as a guide only; nutritional requirements can vary considerably with breed and age of dog.

It is recommended that this diet is first introduced mixed with warm milk as a porridge, then slowly changed to a water mix over the first 6-10 days, then to a dry feed after a further 6-7 days. Whilst a moist diet is being fed, any food left after 20 minutes should be withdrawn. Feed enough to your puppy that will be eaten in 15-20 minutes, increasing or decreasing accordingly. Always have fresh clean water available.

INGREDIENTS

Extruded Cereals, Meat Meal, Poultry Meat Meal, Fish Meal, Rice, Beet Pulp, Poultry Fat, Milk Products, Vitamins and Minerals, Vitamin B1, Vitamin B2, Vitamin B6, Vitamin B12, Biotin, Folic Acid, Nicotinic Acid (Niacin), Pantothenic Acid from Calcium Pantothenate, Deoderase – a natural extract from the yucca plant to aid in neutralising offensive odours.
